Join us for a day of planning and education as we work on increasing our capacity to provide quality, innovative and flexible support into the future.

Our employees are part of our success as organizations. They enjoy their flexibility and, as a result, we can continue to innovate and provide quality, customized services. Our employees deserve an excellent remuneration package that includes ongoing wage increases, excellent benefits and flexible pension options. We have been working with CLBC and MHSD to ensure this topic is front and centre and to increase our profile. We need to continue our lobbying and our excellent work and the 2009 AGM will focus on strategy and education:

- **A presentation from Rick Mowles, CLBC**
- **A presentation by a representative of MHSD**
- **An Overview on the Year’s Successes and Strategies for the Future**
- **An Education Session on “Contacts that Get Results” with Government and the Media**
